

## About ICF

If you want to work on the leading issues of the day, if you want your work to reflect your passion in life, if you truly want to make the world a better place, then you want to work at ICF.

Whether ensuring efficient use of energy resources, protecting the environment for generations to come, supporting cancer and HIV/AIDS patients and returning veterans, keeping young people in school and educators informed, delivering results in emergency preparedness, or breaking ground in any number of today's issues, ICF works in the topics that lead the news.

We have a passionate commitment to our work and to helping our clients achieve their objectives. We combine technical expertise with world-class analytics. We provide room for entrepreneurial thinking and grassroots innovation to achieve compelling results for both our clients' projects and our own company. All our work is done in a professional, collegial, and intellectual environment that allows individuals the latitude they need to perform work which parallels their passions.
