

2020 ICF AAPOR Conference Presentations

Type	Title	Presenter	Session title	Session #	Session information
Paper	How do we reach them? Comparing 3 nonprobability sampling methods for a health survey of lesbian and bisexual women	Deirdre Middleton	Respondent driven sampling: Break-throughs and challenges in implementation, estimation, and inference	A	Thurs, 6/11, 11:00-12:30 https://bit.ly/2BiuN7r
Panel	Improving cancer control research estimates using calibration to national measures: Insights for best practices in the survey context	Tonja Kyle (Panel Organizer)	Improving cancer control research estimates using calibration to national measures: Insights for best practices in the survey context	A	Thurs, 6/11, 11:00-12:30 https://bit.ly/3gLO7tY
	State and regional area estimates using nationally Representative Health Information National Trends Survey (HINTS) data	Lee Harding			https://bit.ly/2ZWeirZ
	Weighted estimates from pooled grantee data: Raking and calibration to national HINTS survey data	Kelly Martin			https://bit.ly/3djROoN
	Computing state and regional estimates from a national survey and comparing to local survey estimates: the Health Information National Trends Survey (HINTS) case study	Ronaldo Iachan			https://bit.ly/3gN7OC2
Paper	Sending web survey invitations via text message to obtain additional BRFSS data and decrease interview length	Sam Collins	Using text messages for survey recruitment and data collection	A	Thurs, 6/11, 11:00-12:30 https://bit.ly/2XRzk8t
Paper	Using SMS as a survey recruitment tool— challenges convincing respondents and carriers of legitimacy	Jamie Dayton	Using text messages for survey recruitment and data collection	A	Thurs, 6/11, 11:00-12:30 https://bit.ly/2zQkzuN
Paper	To SMS, or not to SMS? Using SMS follow-up to decrease response bias	Thomas Brassell	Using text messages for survey recruitment and data collection	A	Thurs, 6/11, 11:00-12:30 https://bit.ly/2U0Dee7
Paper	Hotline bling—Exploration of outbound numbers to improve CATI contact rates	Thomas Brassell	Telephone frame and address-based sample frame issues	B	Thurs, 6/11, 1:15-2:45 https://bit.ly/3gLOO6y
Poster	“Movin’ on up!”: Increasing response rates among new home buyers	Larry Luskin	All-AAPOR poster session and poster award	C	Thurs, 6/11, 3:00-4:30 https://bit.ly/3gKQTje
Poster	Adjusting for national coverage and selection bias in two nonprobability health surveys: The effect of weighting methods	Davia Moyses	All-AAPOR poster session and poster award	C	Thurs, 6/11, 3:00-4:30 https://bit.ly/2XNttRG
Paper	Can we do this another way? Potential nonprobability sample sources for social and health surveys	Matt Jans	Panel recruitment and participation	C	Thurs, 6/11, 3:00-4:30 https://bit.ly/3eK0wgt
Poster	Estimating mode effects in a multi-mode survey of alcohol use	Randy ZuWallack	All-AAPOR poster session and poster award	C	Thurs, 6/11, 3:00-4:30 https://bit.ly/2ArGmsE
Poster	Is there anybody out there? Evaluation of methods to increase minority group response in ABS design	Randy ZuWallack	All-AAPOR poster session and poster award	C	Thurs, 6/11, 3:00-4:30 https://bit.ly/2MgQ9od
Paper	An innovative approach to cognitive testing: Using cognitive probes in production CATI interviews	Sam Collins	Questionnaire pretesting methods: From experts to debriefing	E	Fri, 6/12, 1:15-2:45 https://bit.ly/2zUil3Z
Paper	Improving the Question Appraisal System (QAS): Moving further away from black magic and black boxes	Melinda Scott	Questionnaire pretesting methods: From experts to debriefing	E	Fri, 6/12, 1:15-2:45 https://bit.ly/2XJaelQ
Paper	More experiments in Sexual Orientation and Gender Identity (SOGI) measurement	Matt Jans	Examining new considerations in Sexual Orientation and Gender Identity (SOGI) research	E	Fri, 6/12, 1:15-2:45 https://bit.ly/2TZHUBf
