Project teams and sponsors will complete pre-work and participate in periodic check-in meetings after the course with coaches for continued growth and progress toward desired outcomes.

"I've used the ICF Way as a guideline when doing and performing annual assessments. It made me feel comfortable when speaking with my employee in an area otherwise would have been "foreign" territory for me without the training."

M2

"My employee has become much more aware of how to build his professional network internally at ICF and through outside contacts."

M2

"With elaborately produced learning courses on the basis of practical ground, what I learned in M2 is not only the skill of management, but also the mindset on the more effective business operation. Apart from knowledge, I also got into so many fabulous classmates who are also my colleagues in various locations under "One ICF", and will be my team partners someday."

"We have long needed to invest in soft skills. I felt that the social styles program was a wonderful program and was truly engaging. I think focusing on how others perceive you and being self aware if a must, and then to know how styles other possess is greatly beneficial. It allows you to "put yourself in their shoes."

Social Styles

"My employee has improved in his ability to have conversations with his direct reports about areas where they could improve."

Great Conversations
"My learnings have led to immediate action: 1- I trust more in myself and my leadership 2- I am aware of my tendency to problem solve on my own and will instead engage others 3- I use the 3-Box approach during team meetings to discuss what is working, what needs to change, and what would be innovative..."

*ALC*

"Day 1 really challenged me to think bigger, beyond what I'm tasked to do each day."

*ALC*

"The evaluations and the self-assessment component are invaluable. This is the one part of the program that the participant can completely own when they leave the session, and can have an immediate impact."

"I thought the content of this program was exceptional. I truly enjoyed and appreciated the information provided and I enjoyed the format. I definitely think I learn better when the material is interactive and this was an interesting and effective way to do it."

*ExecOnline*

"I came away with a much clearer picture of the ICF strategy, my role in it, and how it all fits together. I will devote more time to proactively think about and act upon improving the business and engaging my team members."

*ALC*

"The program was evidence based, anecdotal, and engaging. The concepts were delivered clearly, the tools and assignments helped guide my thinking in a structured and well-paced manner."

*ExecOnline*
"We need to be nimble and agile to adapt to change, help our clients succeed and continue to make big things possible around the world."
