<sup>(2)</sup> These tables provide reconciliations of non-GAAP financial measures to the most applicable GAAP numbers. While we believe that these non-GAAP financial measures may be useful in evaluating our financial information, they should be considered supplemental in nature and not as a substitute for financial information prepared in accordance with GAAP. Other companies may define similarly titled non-GAAP measures differently and, accordingly, care should be exercised in understanding how we define these measures.

<sup>(3)</sup> Subcontractor and Other Direct Costs is equal to Direct Costs minus Direct Labor and Fringe Costs.

<sup>&</sup>lt;sup>(4)</sup> Special charges related to acquisition expenses: These costs are mainly related to closed and anticipated-to-close acquisitions, consisting primarily of consultant and other outside third-party costs.

<sup>&</sup>lt;sup>(5)</sup> Special charges related to severance for staff realignment: These costs are mainly due to involuntary employee termination benefits for Company officers or groups of employees who have been notified that they will be terminated as part of a consolidation or reorganization.

<sup>&</sup>lt;sup>(6)</sup> Special charges related to facilities consolidations and office closures: These costs are exit costs associated with terminated leases or full office closures. These exit costs include charges incurred under a contractual obligation that existed as of the date of the accrual and for which we will continue to pay until the contractual obligation is satisfied but with no economic benefit to us.

<sup>&</sup>lt;sup>(7)</sup> EBITDA Margin Percent and Adjusted EBITDA Margin Percent were calculated by dividing the non-GAAP measure by the corresponding revenue.

<sup>&</sup>lt;sup>(8)</sup> Income tax effects were calculated using an effective U.S. GAAP tax rate of 22.9% and 34.5%, and 24.0% and 35.6% for the three and nine months ended September 30, 2018 and 2017, respectively.

<sup>(9)</sup> As is shown in this supplemental schedule, we track revenue by key metrics that provide useful information about the nature of our operations. The client markets metric provides insight into the breadth of our expertise while the client mix metric is an indicator of the diversity of our client base. The contract mix metric provides insight in terms of the degree of performance risk we assume.
